

## **MMP 240-1300: Web Design**

### **Content List for Social Com's**

Home Page- To show how they were found, who founded it, and what they are going to accomplish. About us section to show you made the site, who had the idea to make the app/website with pictures.

Sign in Page- A place where you sign in it may be a popup window. You can sign in multiple ways through Emails that are available.

Account Page- You can continue after the popup window and tailor your account accordingly. On the account, you can see a little word that says "Event Planner" it has means for users to create events for anything they want through a pop-up window.

Moderators Page- A page where only the people who created the site can enter through with a password. And that page watches all the users and their post. Also, maybe some word and image algorithm that makes sure you can't post anything explicit.

Creat-Yor Page- this page lets people come up with ideas for our site by letting the users create wireframes on paper or any website that lets you do pdf, jpg, or png files and let it get posted for everyone or the moderators to see.
